FOR IMMEDIATE RELEASE

Stintz beats Ford head to head

Ford loses or ties all races tested

TORONTO, NOVEMBER 4th, 2013 - - In a random sampling of public opinion taken by the Forum Poll TM among 1393 Toronto voters the day after Mayor Ford apologized for his mistakes on his Sunday radio show, TTC Chair Karen Stintz would defeat him in a mayoral contest in which he, she and former budget chief David Soknacki were the only contenders.

In a three way race between the only three declared candidates for mayor, Karen Stintz would capture close to 4-in-10 votes (38%) to one third for Rob Ford (33%). Soknacki would take less than one tenth (8%).

In a four way race with the same contenders and MP Olivia Chow added to the mix, Chow would capture four tenths of the vote (39%), compared to 3-in-10 for Rob Ford (29%), less than a fifth for Stintz (16%) and about one twentieth for David Soknacki.

In a five way race, with all the previous contenders, plus radio host John Tory, Chow wins with a third of the vote (32%) to a quarter for each for Ford (26%) and Tory (25%). Stintz takes one tenth (10%) and Soknacki takes very few (2%).

Finally, in a race in which Olivia Chow does not contend, Rob Ford (29%) and John Tory (31%) essentially tie, while Stintz takes less than a quarter of the vote (22%) and David Soknacki takes less than one twentieth (4%).

"We have seen Karen Stintz move from a marginal contender to the main event, and if there are no other contenders, she trumps even the mayor," said Forum Research President, Dr. Lorne Bozinoff.

Lorne Bozinoff, Ph.D. is the president and founder of Forum Research. He can be reached at lbozinoff@forumresearch.com or at (416) 960-9603.

Methodology

The Forum Poll™ was conducted by Forum Research with the results based on an interactive voice response telephone survey of 1393 randomly selected Torontonians 18 years of age and older. The poll was conducted on November 4th, 2013.

Results based on the total sample are considered accurate +/- 3%, 19 times out of 20. Subsample results will be less accurate. Margins of error for subsample (such as age, gender) results are available at www.forumresearch.com/samplestim.asp

Where appropriate, the data has been statistically weighted by age, region, and other variables to ensure that the sample reflects the actual population according to the latest Census data.

This research is not necessarily predictive of future outcomes, but rather, captures opinion at one point in time. Forum Research conducted this poll as a public service and to demonstrate our survey research capabilities.

With offices across Canada and around the world, 100% Canadian-owned Forum Research is one of the country's leading survey research firms. This Forum Poll™ and other polls may be found at Forum's poll archive at www.forumresearch.com/polls.asp
